PECB BEYOND RECOGNITION

DEFENCE NETWORK

PECB Certified ISO 22301
Lead Implementer

Master the implementation and management of Business Continuity Management Systems (BCMS) based on ISO 22301

Why should you take this training course?

No two disasters in the world cause equal damage. Between the unpredictability of natural disasters, information security breaches, and incidents of different nature, preparedness can make you stand out in the crowd and predict the future of your business. In light of this, proper planning is essential to mitigating risks, avoiding consequences, coping with the negative effects of disasters and incidents, but at the same time, continuing your daily operations so that customer needs do not remain unfulfilled.

Organizations can make progress towards understanding and managing disasters, incidents, and risks by having a BCMS based on ISO 22301 in place. Therefore, PECB has designed this training course to prepare its participants implement a business continuity management system (BCMS) in compliance with the requirements of ISO 22301. Attending this training course allows you to gain a comprehensive understanding of the best practices of the business continuity management system and to be able to establish a framework that allows the organization to continue operating efficiently during disruptive events.

Why is this course more desirable than the others?

PECB ISO 22301 Lead Implementer training course is the result of extensive research, deliberation, and cooperation between PECB's course developers and international experts in the field of business continuity.

After attending the training course, you can sit for the exam and apply for the "PECB Certified ISO 22301 Lead Implementer" credential. The internationally recognized "PECB Certified ISO 22301 Lead Implementer" certificate will prove that you have the professional capabilities and practical knowledge to implement a BCMS based on the requirements of ISO 22301 in an organization.

What will the certification allow you to do?

Certification is the formal recognition and proof of knowledge which carries an important weight when you are entering the labor market, or when you want to advance in your career. Due to the continuously evolving risk landscape, the demand for business continuity professionals continues to grow. As such, the ISO 22301 certification has become the norm for best-practice in business continuity. By taking a certification, you showcase a certain skill level which will display added value not only to your professional career but to your organization as well. This can help you stand out from the crowd and increase your earning potential.

Who should attend this training course?

- Project managers and consultants involved in business continuity
- Expert advisors seeking to master the implementation of the business continuity management system
- Individuals responsible to maintain conformity with BCMS requirements within an organization
- Members of the BCMS team
